

Highland Soil and Water Conservation District

2020 Annual Tree Seedling Sale

Trees have a job to do and winter is the perfect time to plan for spring planting. By putting trees to “work” on your land, you can watch them do essential tasks like improve water quality, control soil erosion, increase agricultural production, provide a windbreak, enhance wildlife habitat or just beautify your surroundings! This year the Highland Soil and Water Conservation Districts’ Annual Tree Seedling Sale will offer hardy seedlings and white vinyl flags. This is a great opportunity to make purchases at a minimal price with a maximum long-range benefit.

There will be a variety of tree seedling packets offered on a first come, first serve basis so get your order in early. The pick up date will be April 10, 2020 at the Liberty Township building in Hillsboro. After you have placed your order, a reminder post card will be mailed to you closer to the scheduled dates. Because of the low cost, we cannot furnish seedling replacements, nor can we mail or deliver your order. Remember that these seedlings are from one to two years of age and average 8 to 10 inches in height. Most orders will fit in a regular size grocery bag. Fill out the order form below and mail to us along with your payment. If you have any questions, contact our office at 937-393-1922 Ext#3.
